

## **Pearl Diving Trip – Program Details**

**Start Time:** 7:30 a.m. at the marina

This exclusive experience is designed for a small private group (up to 10 participants).

Following a short orientation, guests will be provided with masks and all necessary free-diving equipment. The boat will then head east for 30–40 minutes—approximately 30 km toward Qatar—to a shallow-water area with a depth of 2–3 meters.

At the site, participants will collect small oysters using hand nets and enjoy 1 to 1.5 hours of free diving and additional snorkeling. Guides will open oysters to look for natural pearls.

Light refreshments and snacks will be served on board.

We expect to return to the marina at approximately **12:30 p.m**
